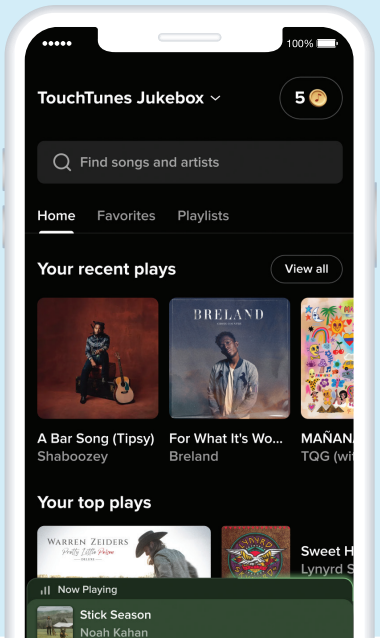
The app that makes any night unforgettable

The TouchTunes app lets users play the jukebox without leaving their seat. A fully redesigned and refreshed app brings the digital jukebox experience into the future.

- See every jukebox location from coast to coast
- Browse a virtually endless song catalog
- Find where songs are filtered and where they are available
- Know every song that is in line to play and when your song will play
- Interact with other users in the same venue
- +12 million monthly app users help increase revenue and paid plays



How the app works for you:

- Guests can play the jukebox from anywhere in your venue
- Without having to get up and move, guests will play more songs driving up revenue
- The app personalizes to a user's play preferences making it easier and faster to play music
- Free credits can only be earned through the mobile app encouraging more paid plays
- It's easier and more private to purchase credits & play
- Instant mobile support can only be found in the app
